

# MCR2030 Dashboard

**“A closed online platform for MCR2030 cities and participating entities”**

# MCR2030 dashboard

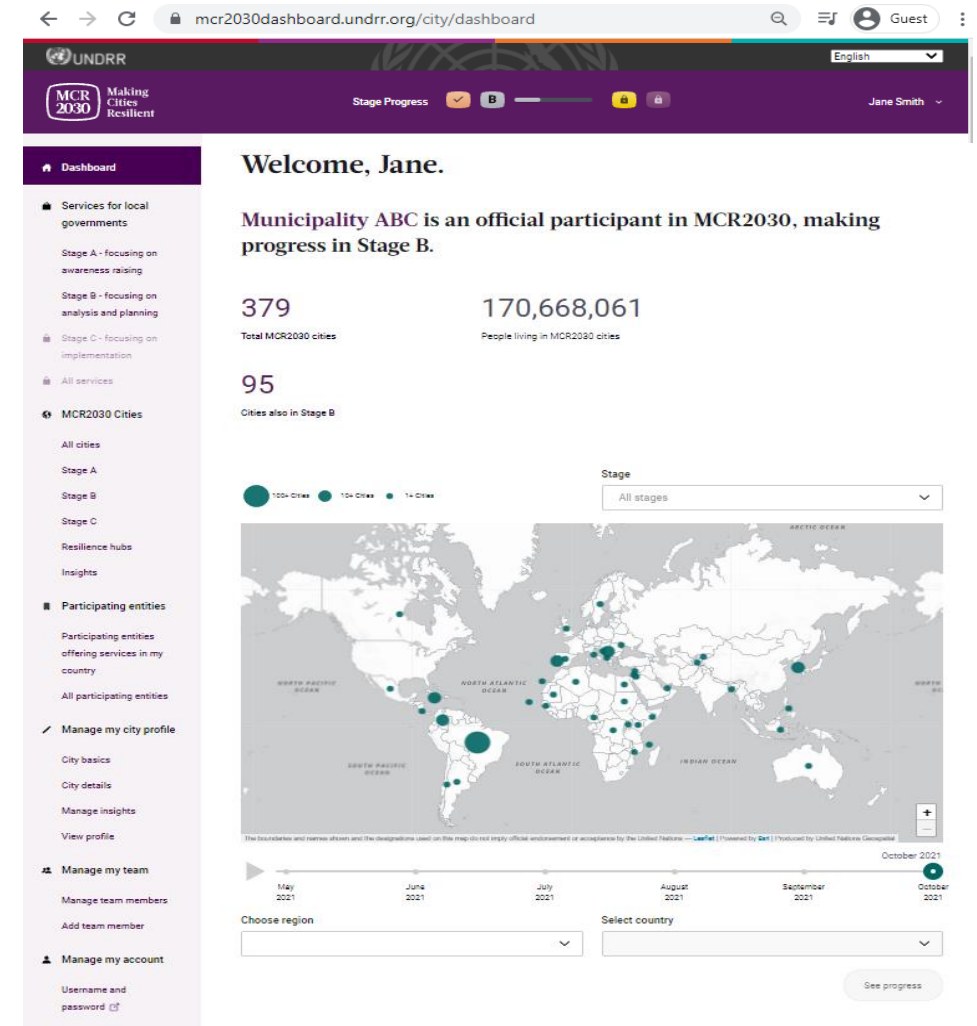

- **A closed online platform** allowing cities to **record and monitor progress** along the resilience roadmap and **share insights** and lessons learned with others regionally and globally
- A **marketplace/registry** for cities to find potential service providers who can support implementation of actions; and for partners to list their services and get connected with cities
- Joining MCR2030 = access to the dashboard

<https://mcr2030dashboard.undrr.org>

# Who can join MCR2030 and access the dashboard?

- **City or local government:** Administrative unit which are sub national, such as, but not limited to, cities, municipalities, towns, villages, districts, provinces, states, etc.
- **Participating entity:** Another name for partner, any entity with specific knowledge and expertise that can support cities to progress along the resilience roadmap e.g., national government, national association of municipality, development agency, non-governmental organizations (NGO)/civil society organizations (CSO), academia and research institution, private sector organization, UN entity or organization, networks, etc.

# Participating entities and service provision

1. **'Core Partners'** are co-creators of MCR2030, including *C40, ICLEI, IFRC, JICA, Resilient Cities Network, UCLG, UN-HABITAT, UNDRR, UNOPS, the World Bank Group, WCCD, and UNDP.*

2. **'Supporting Entities'** are non-commercial entities with expertise in specialized areas in the regions and can provide specific gratis technical inputs in fields that support cities to move along the resilience roadmap. This includes *national governments, development agencies, NGOs, CSOs, academia and research institutions, media, national associations of municipalities, and others.*

3. **'Specialist Service Providers (SSPs)'** are the entities, including but not limited to the *private sector*, that can offer technical one-to-one advice and support to cities.

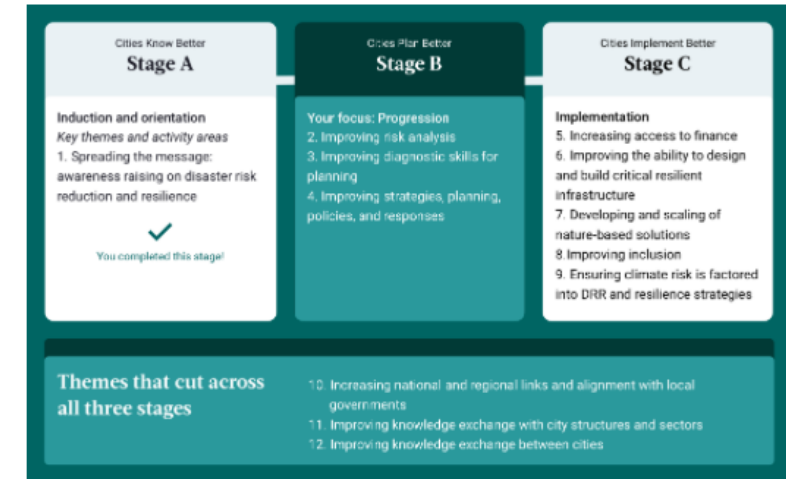

What can you do on the dashboard?

Sample Features	Cities/Local Governments	Participating Entities
<b>Common to all users</b>	<ul style="list-style-type: none"> <li>• View MCR2030 map and analytics</li> <li>• View a general country page</li> <li>• Search for services &amp; participating entities</li> <li>• Contact cities</li> <li>• Contact participating entities</li> <li>• Contact MCR2030 secretariats</li> <li>• Add and manage team members</li> <li>• Report bugs</li> <li>• Report feedback</li> <li>• Download orientation and media kit</li> </ul>	
<b>Features unique to user type</b>	<ul style="list-style-type: none"> <li>• See resilience roadmap and their stage</li> <li>• See required steps (critical milestones) for their resilience roadmap stage</li> <li>• Share insights and record progress, and graduate to the next resilience roadmap stage</li> <li>• Make reference to services received</li> <li>• Download MCR2030 certificate</li> </ul>	<ul style="list-style-type: none"> <li>• Add services</li> <li>• Add references (cities that have used their services)</li> </ul>
<b>Special features</b>	<p><b>Special features for Resilience Hubs</b></p> <ul style="list-style-type: none"> <li>• Add resilience hub services</li> <li>• Submit resilience hub service report</li> <li>• Download Resilience Hub Certificate</li> </ul>	<p><b>Special features for national government offices in charge of DRM, local government and urban development</b></p> <ul style="list-style-type: none"> <li>• View special country page</li> <li>• Add national government guidance &amp; quotes</li> <li>• Download a list of city joining MCR2030, with focal point contact and registration details</li> </ul>

# What can city users do on the dashboard?

- Cities can **record and monitor progress along the resilience roadmap**. They can see where they are on the resilience roadmap (Stage A, B or C) and what actions they should focus on to step up resilience building in the city
- Cities can **search for specific services** that can help them complete certain steps and progress along the resilience roadmap (searchable by relevant stages, themes, service providers, type of services, etc.)
- Cities can **report achievements and move from Stage A to B and B to C**, unlock access to more services and progress further along the resilience journey.

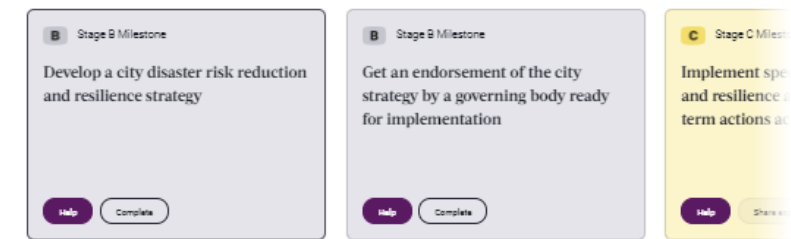

## Your next steps toward protecting your city

Stage B cities focus on improving assessment and diagnostic skills for planning, increasing alignment between local strategies with national and regional strategies, and improving early-stage strategies and policies. The MCR2030 Dashboard will help your city identify partners and resources to refine a DRR and resilience strategy and ensure development plans are risk-informed.

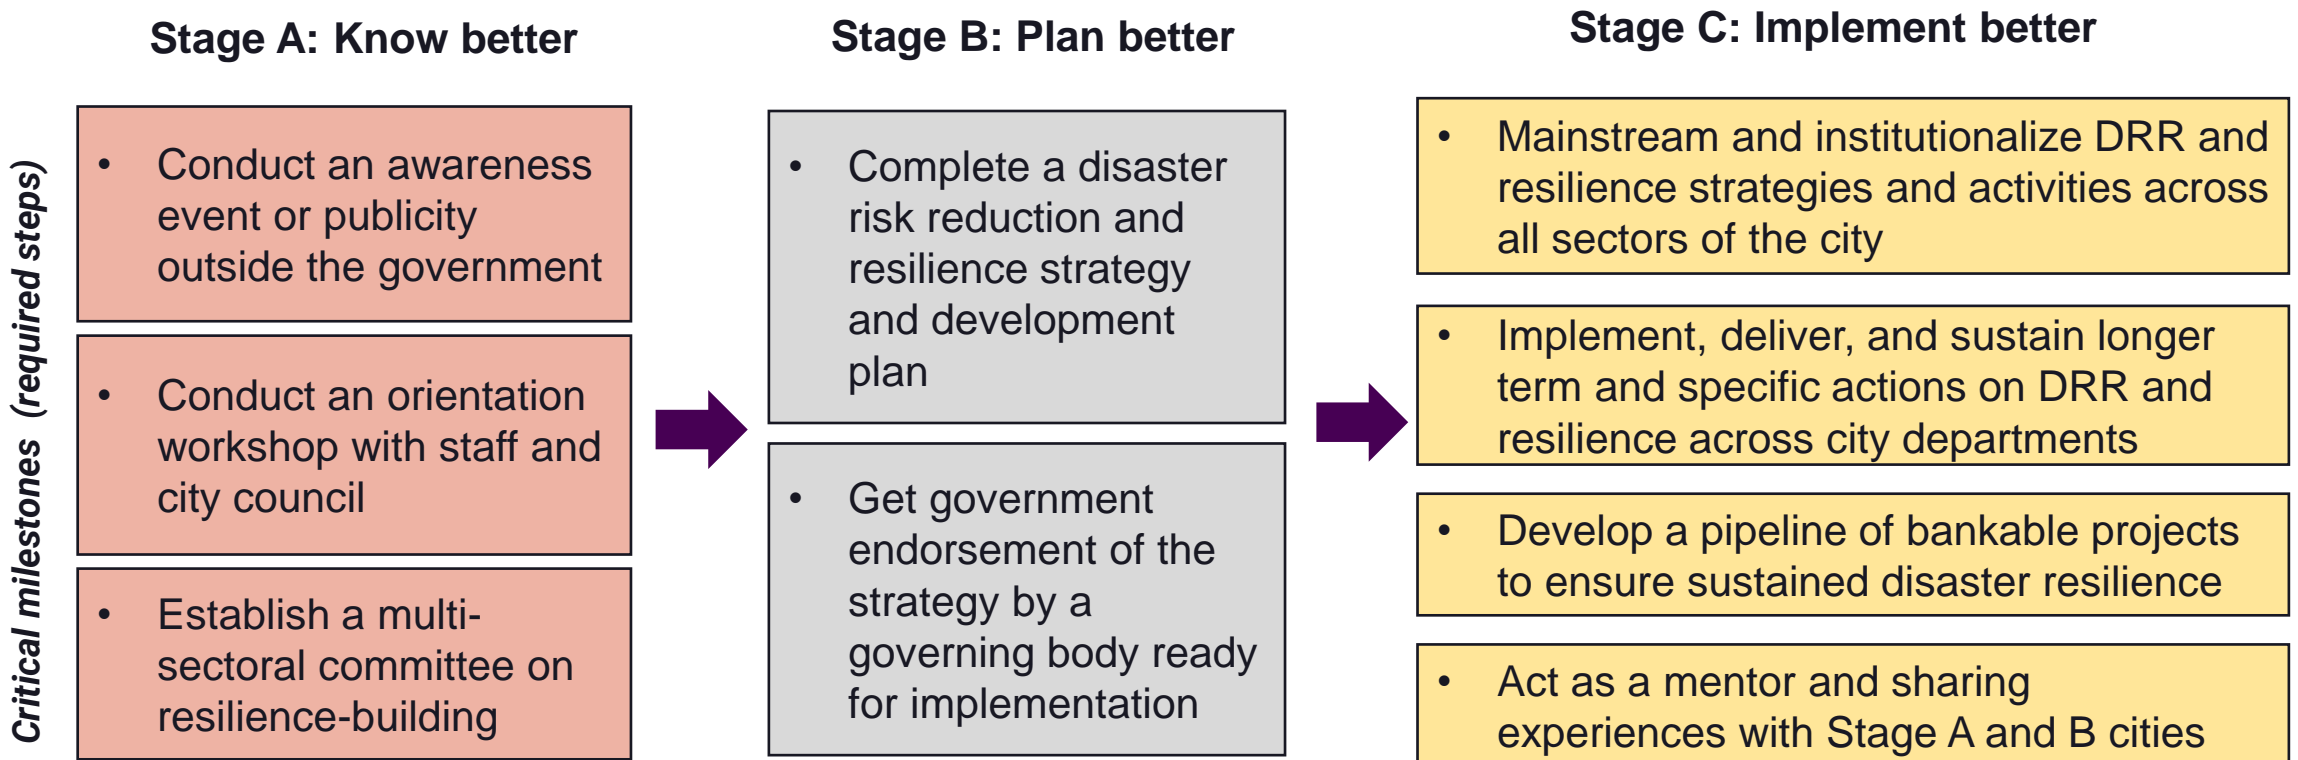

\*For the purpose of MCR2030, the term "cities" are used to refer to all administrative units which are sub national, such as, but not limited to, cities, municipalities, towns, villages, districts, provinces, states, etc.

Complete your city profile | Orientation to Stage B | How to use the dashboard?

# Moving along the Resilience Journey

- MCR2030 allows cities to demonstrate progress by sharing insights
- Self-service through sharing insights on the MCR2030 dashboard
- Easy for cities to decide where they start, and how they proceed

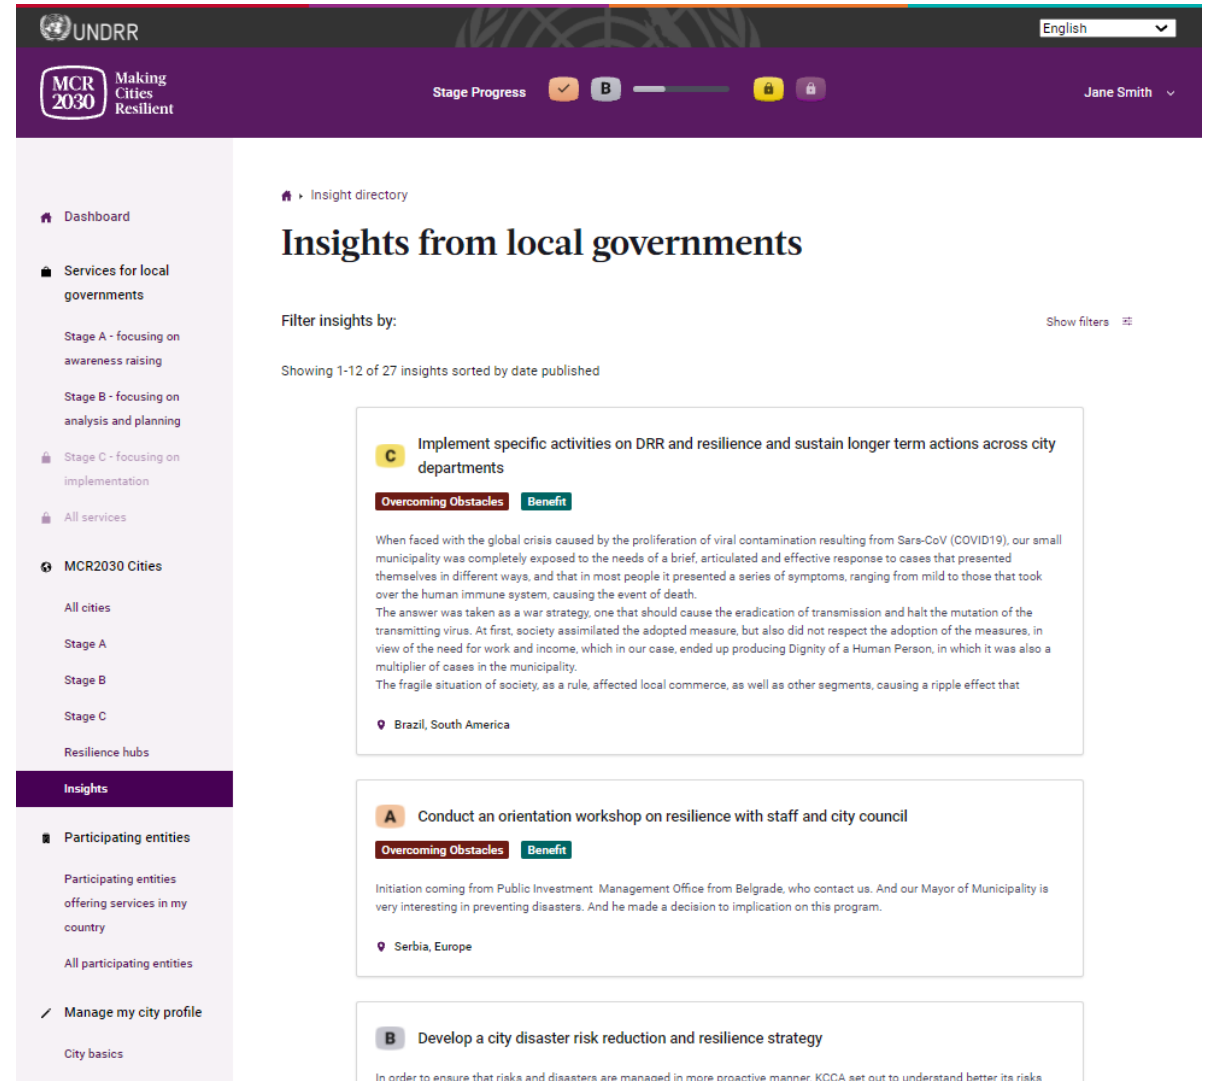

# What can city users do on the dashboard?

The image displays two screenshots of the UNDRR MCR 2030 dashboard. The top screenshot shows the 'All participating entities' page, which includes a search bar, a filter for organizations by type, a toggle for fee-based services, and a dropdown for the region. The bottom screenshot shows the 'Services for cities in Stage B' page, which lists various services such as 'Sustainability, Climate Adaptation and Urban Resilience Indicators' and 'Multi-hazard vulnerability model'.

- Cities can **search participating entities** that have the expertise matching to their needs and contact them for collaboration
- Cities can see the **guidance and support provided by their national government entities**, if any
- Cities can **access help and many other useful information** that will support cities to progress further on their resilience journey

# What can city users do on the dashboard?

- Cities can **share insights and lessons learned** and make them visible to other cities and participating entities. It's a place cities can **showcase their progress and seek potential collaboration!**
- Cities can see other MCR2030 cities and contact them for exchanges and learning

The screenshot displays the UNDRR MCR2030 dashboard. The header includes the UNDRR logo, the MCR2030 logo, and the text "Making Cities Resilient". The user's name, Jane Smith, is visible in the top right corner. The dashboard is divided into a left sidebar and a main content area. The sidebar contains navigation options: Dashboard, Services for local governments (with sub-options for Stage A, B, and C, and All services), MCR2030 Cities (with sub-options for All cities, Stage A, Stage B, Stage C, and Resilience hubs), Insights (highlighted in purple), Participating entities (with sub-options for Participating entities offering services in my country and All participating entities), and Manage my city profile (with sub-option for City basics). The main content area shows the "Insights directory" with the title "Insights from local governments". Below the title, there are filter options and a note "Showing 1-12 of 27 insights sorted by date published". Three insight cards are visible: 1. "Implement specific activities on DRR and resilience and sustain longer term actions across city departments" (Category C), with sub-categories "Overcoming Obstacles" and "Benefit", and location "Brazil, South America". 2. "Conduct an orientation workshop on resilience with staff and city council" (Category A), with sub-categories "Overcoming Obstacles" and "Benefit", and location "Serbia, Europe". 3. "Develop a city disaster risk reduction and resilience strategy" (Category B), with sub-categories "Overcoming Obstacles" and "Benefit", and location "KCCA" (partially visible).

# What can city users do on the dashboard?

- Cities can see a **country progress** on local resilience
- **See insights** shared by their peer cities
- **See partners and their services** offered to cities in your country
- **See national government guidance** for cities

The screenshot shows the UNDRR MCR 2030 dashboard for Brazil. The header includes the UNDRR logo, the MCR 2030 logo, and a language dropdown set to English. The user's name, Jane Smith, is visible in the top right. The left sidebar contains navigation options: Dashboard, Services for local governments (with sub-items for Stage A, B, and C), All services, MCR2030 Cities (with sub-items for All cities, Stage A, Stage B, Stage C, Resilience hubs, and Insights), Participating entities, Manage my city profile, and Manage my team. The main content area displays the country page for Brazil, showing that 156 cities (41% of total) and 40,623,301 people (24% of total) are participating. It also shows the number of cities in each stage: 69 Stage A, 39 Stage B, and 48 Stage C. Below this, there are cards for recently joined cities: Itaguaí, Seropedica, and Engenheiro Paulo de Frontin. The bottom section features a card titled 'Latest progress and insights shared by cities in Brazil' with a sub-card about implementing specific activities on DRR and resilience.

Overcoming Obstacles

Benefit

When faced with the global crisis caused by the proliferation of viral contamination resulting from Sars-Cov (COVID19), our small municipality was completely exposed to the needs of a brief, articulated and effective response to cases that presented themselves in different ways, and that in most people it presented a series of symptoms, ranging from mild to those that took over the human immune system, causing the event of death.

The answer was taken as a viral strategy, one that should cause the eradication of transmission and halt the mutation of the transmitting virus. At first, society assimilated the adopted measure, but also did not respect the adoption of the measure. In view of the need for work and income, which in our case, ended up producing Dignity of a Human Person, in which it was also a multiplier of cases in the municipality.

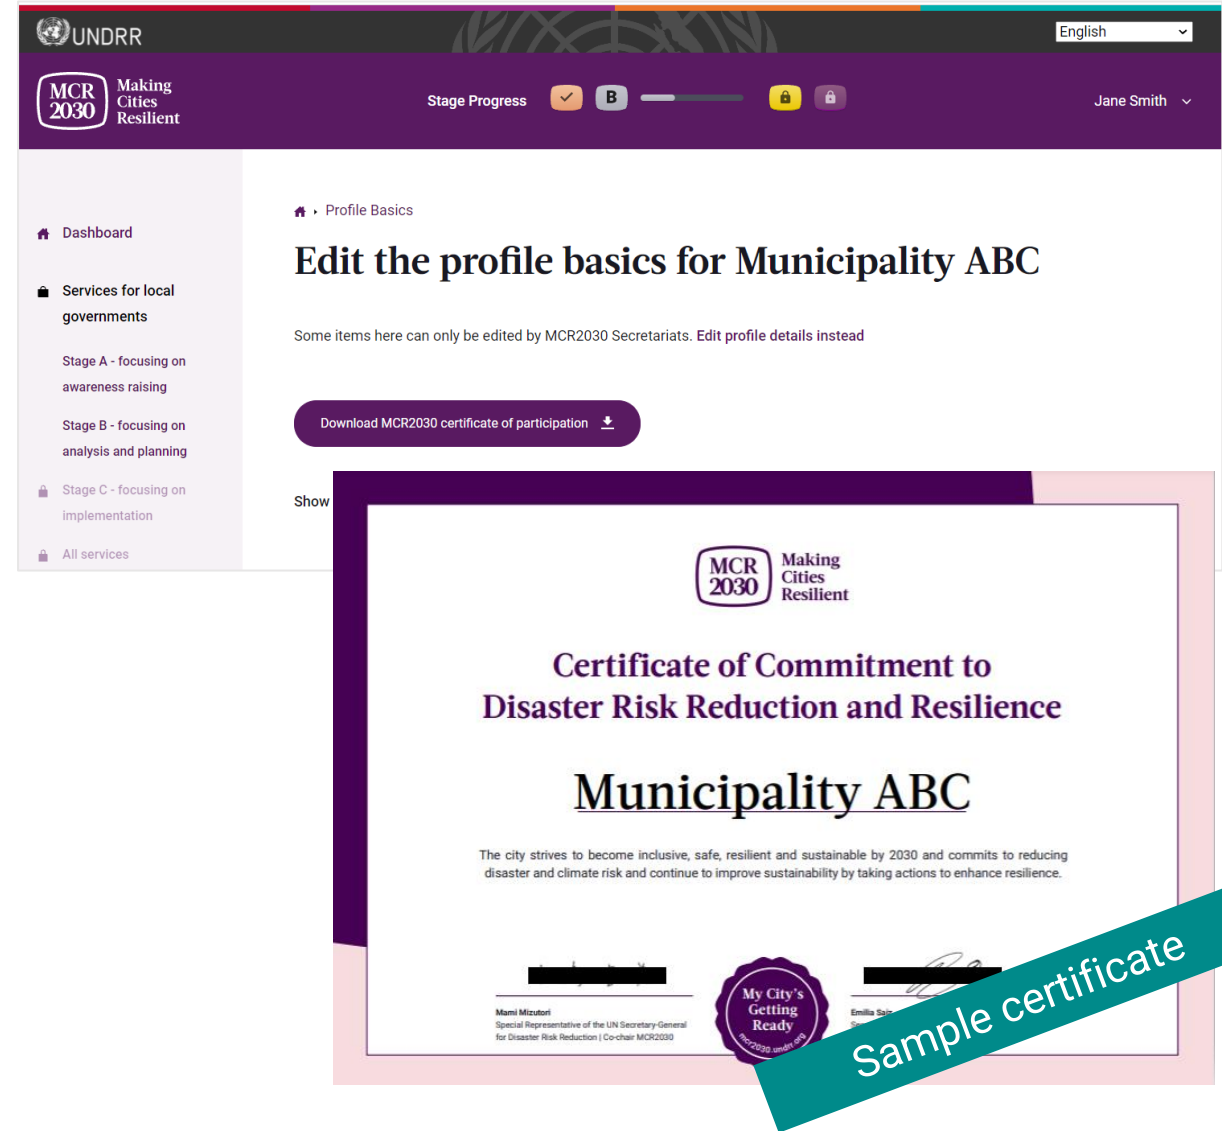

The fragile situation of society, as a rule, affected local commerce, as well as other segments, causing a ripple effect that reached the

# What can city users do on the dashboard?

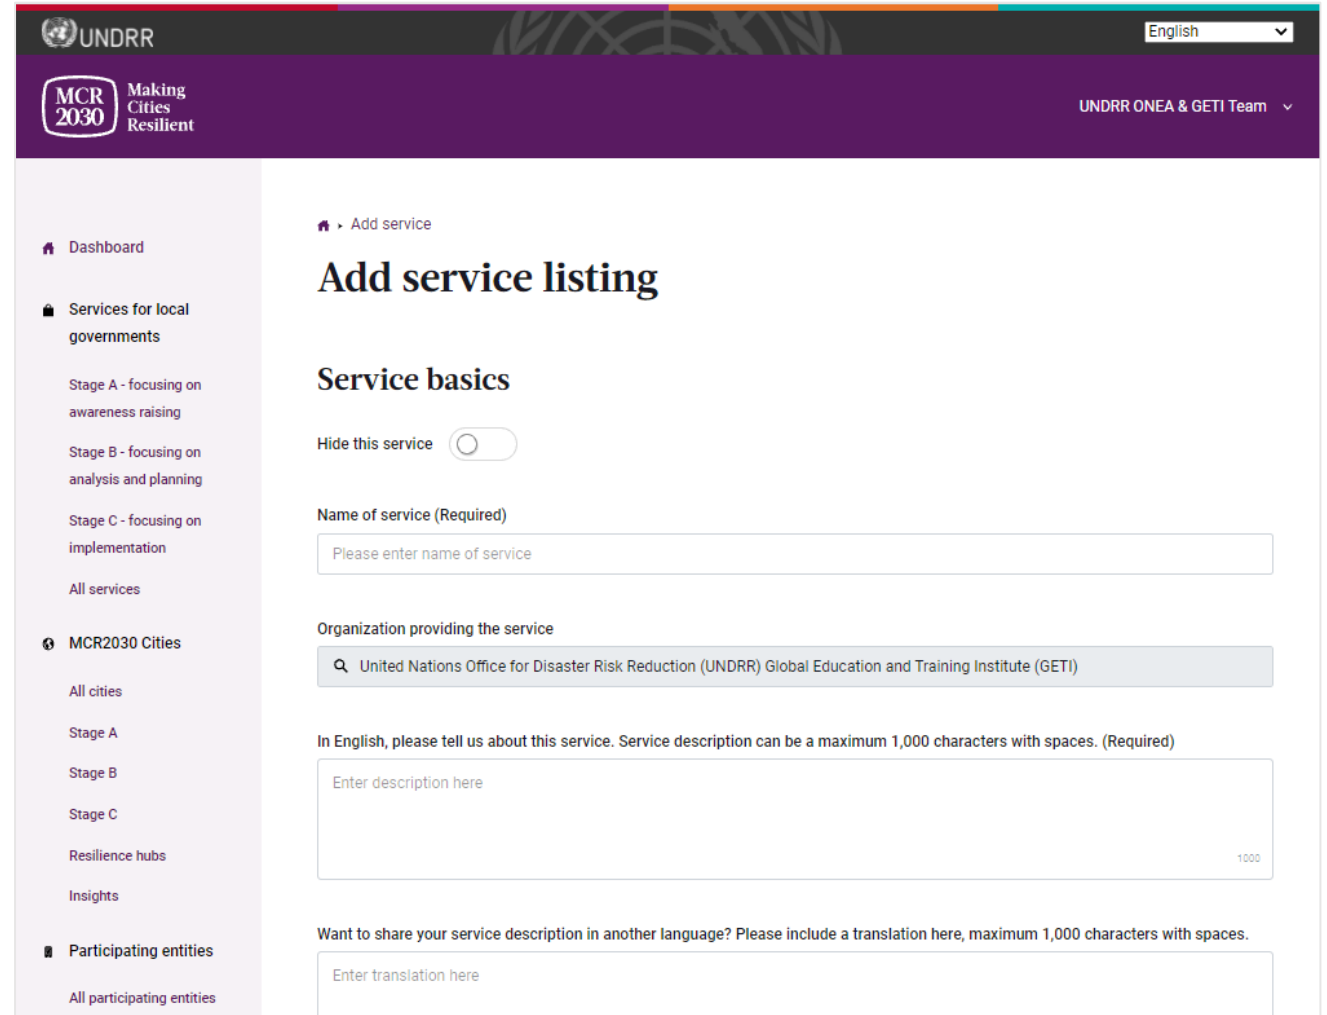

- **Cities can download certificate of participation** and many other media and guided resources
- **More than 1 team member can be added** to the same city account
- Cities can always update city profiles (both the basics and details)
- .... and many more

The screenshot displays the UNDRR MCR2030 dashboard interface. The top navigation bar includes the UNDRR logo, the MCR2030 'Making Cities Resilient' logo, a 'Stage Progress' indicator, and a user profile for 'Jane Smith'. The left sidebar contains navigation options: 'Dashboard', 'Services for local governments' (with sub-items for Stage A, B, and C), and 'All services'. The main content area is titled 'Edit the profile basics for Municipality ABC' and includes a 'Download MCR2030 certificate of participation' button. A sample certificate is overlaid on the bottom right, featuring the MCR2030 logo, the title 'Certificate of Commitment to Disaster Risk Reduction and Resilience', the name 'Municipality ABC', and a 'My City's Getting Ready' seal. A teal banner with the text 'Sample certificate' is placed over the bottom right corner of the certificate image.

# What can participating entity users do on the dashboard?

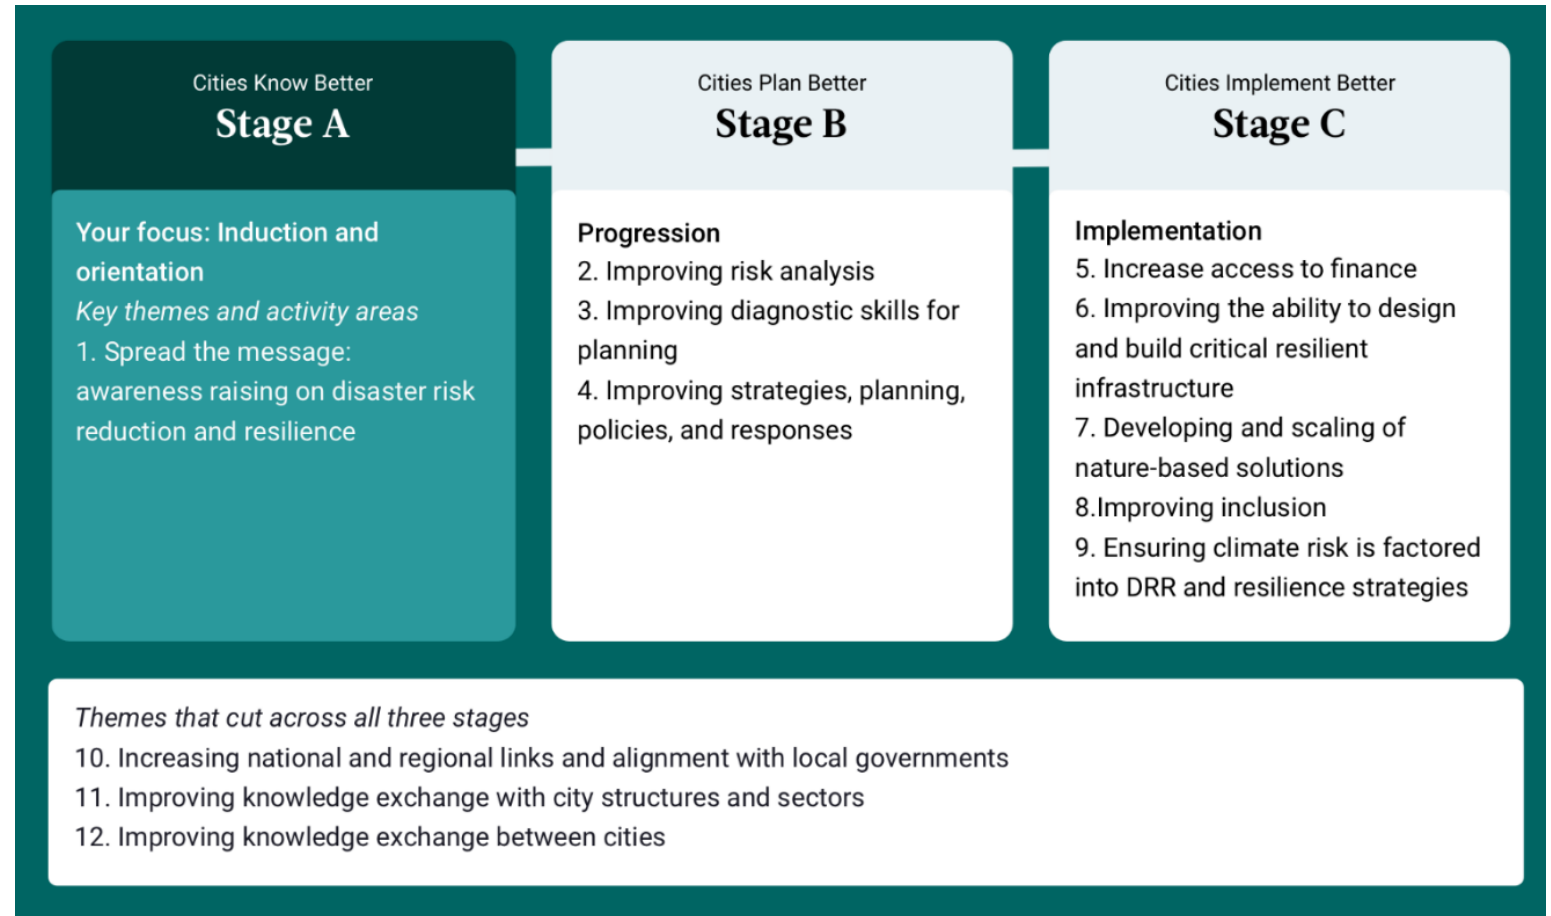

- **List and publicize services** that can help cities progress along the resilience roadmap
  - **Search for cities** matching their requirements for potential collaboration
  - **Search for good case examples** from cities
  - Use the dashboard to **explore potential new market**
  - **Explore potential collaboration** with other partners that provide complimentary services
- .... and many more!

The screenshot displays the UNDRR MCR2030 dashboard interface. The top navigation bar includes the UNDRR logo, the 'MCR 2030 Making Cities Resilient' logo, a language dropdown set to 'English', and the user identity 'UNDRR ONEA & GETI Team'. A left sidebar menu lists navigation options: Dashboard, Services for local governments (with sub-items for Stage A, B, and C, and All services), MCR2030 Cities (with sub-items for All cities, Stage A, Stage B, Stage C, Resilience hubs, and Insights), and Participating entities (with All participating entities). The main content area is titled 'Add service' and 'Add service listing'. Under 'Service basics', there is a 'Hide this service' toggle switch. The form includes a 'Name of service (Required)' text input field, an 'Organization providing the service' dropdown menu currently showing 'United Nations Office for Disaster Risk Reduction (UNDRR) Global Education and Training Institute (GETI)', and a 'Service description' text area with a 1,000 character limit. A note below the description field asks for a translation in another language, with a corresponding text input field.

# List your services!

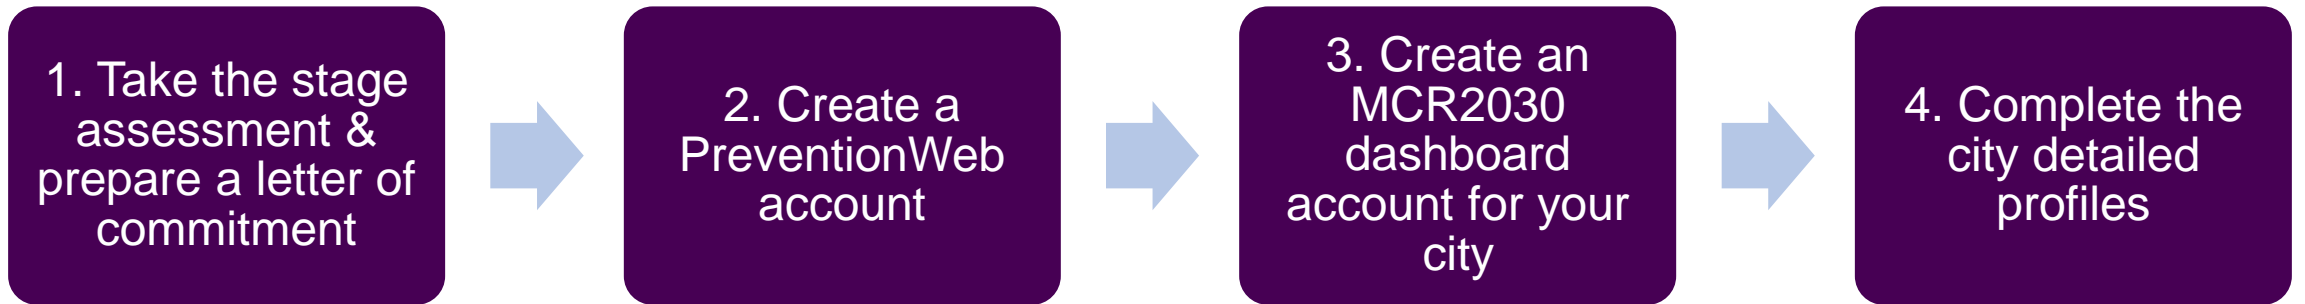

- List your services to help cities get in touch for specific support.
- The more specific you can describe your service, the better for cities to find you.
- Services will be categorized into the 12 thematic areas of the MCR2030 resilience roadmap.

# How to join MCR2030 and access the dashboard?

# For Local Governments

MCR2030 sign-up steps:

Detailed guide available at <https://mcr2030.undrr.org/how-join-mcr2030-local-government>

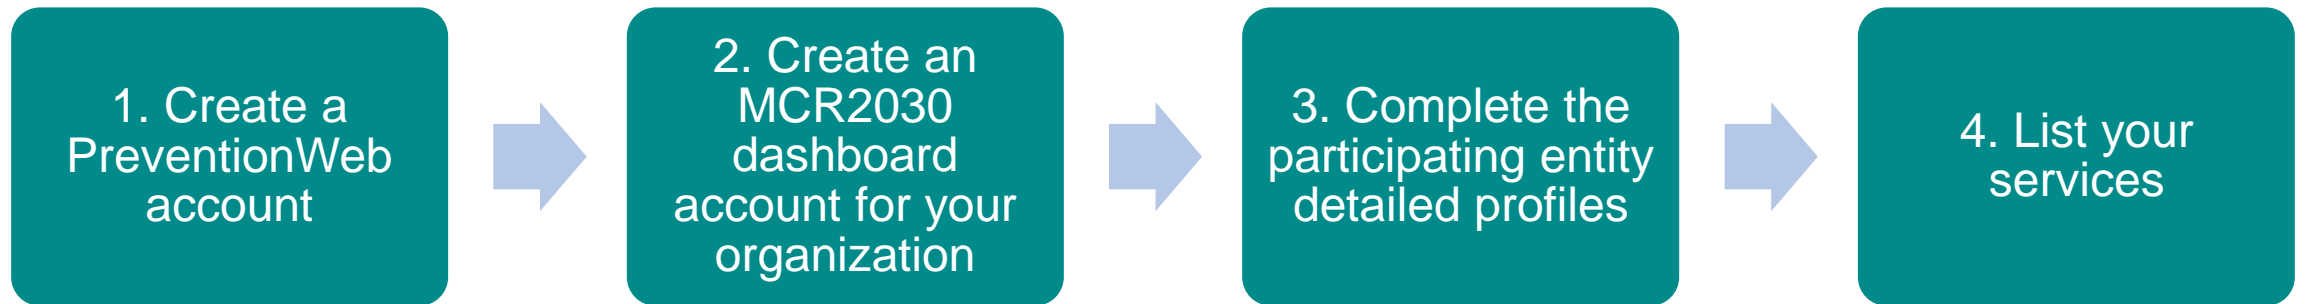

Tips:

- *Complete all steps! Cities are encouraged to complete both the city profile basics and details to maximize the benefits from the dashboard access. This will allow you to discover participating entities and services matching to your city's needs.*

# For Participating Entities
