## GLOBAL PLATFORM FOR DISASTER RISK REDUCTION

### **15.30-16.15: Learning from our Host: Indonesia at the Forefront of Local Resilience**

This year's Global Platform host country, Indonesia, has a strong track record of being at the forefront of disaster and climate resilience efforts at the national and sub-national level. This segment will showcase the experience and reflections of local leaders and governments in Indonesia

### **16.15-16.45: Learning from MCR2030 Resilience Hubs**

MCR2030 has recognized several Resilience Hubs, local authorities that have committed to strengthen climate and disaster resilience in their own municipality as well as to support other local governments in their efforts. In this segment Resilience Hubs will share their experience and recommendations with other municipalities

### **16.45-17.15: MCR2030 IGNITE – Ideas for Resilience**

This segment will feature 3 IGNITE style presentations (speaker rather than ppts led) on the following subjects (*10 mins each*):

- Strengthening national-local coordination on disaster resilience
- Partnering with the private sector
- Accessing finance

### **17.15-17.30: Closing & summary of key points for GP2022 Chair's Summary**

### **17.30-18.00: Ceremonial Certificate Presentation**
